<p>1. It is quite correct that Munich Base does not have any safe housing which is really suitable for SOB's needs. MB has two categories of housing: units assigned to specific projects, and therefore not available for use under GRCROOND; and the CAUDO properties, which are for general use and therefore not secure enough for GRCROOND. We can obtain a suitable property, but we need the following from SOB:</p> <p>a. If the property is for your exclusive use, it must be funded by GRCROOND or another of your projects, as unfortunately we have no project which would cover a separate house for your use.</p> <p>b. We would like some idea of where you want the house to be. We presume that it should not be too far from your present office area, for the sake of convenience, but if this is not the case, please let us know.</p> <p>c. If you have any special requirements concerning safehouse keepers, please forward them. We have found that it is impractical to rent a house without a keeper, as this ties up a case officer looking after the maintenance, heating, and bills.</p> <p>2. If you can take care of these points, we will get to work right away on the problem of obtaining a house. It does not appear that the problem will be too difficult, as in another recent case we advertised for a <u>Landhaus</u> outside Munich and received several answers from your general area. Such a place should be just about what you need, as most of the places offered were two- and three-room houses out in the country. For planning purposes, we suggest that you allow about 400 DM per month for the rent and upkeep of the house, and about another 200 DM per month for a keeper.</p>
